

# Discussion points SB kick-off August 25 2016

## Follow up on the reports from our working groups

What do you think about the points raised by each working group, are they realistic? Should we focus on these this fall or are there any other points we rather should focus on?

## SB web pages

We would like to improve our website [<https://spraakbanken.gu.se/>](https://spraakbanken.gu.se/) and make it more user-friendly and clear for users outside Språkbanken. Discuss how the website could be improved, do you have any concrete suggestions regarding new layout, headings/titles, content, navigation, etc?

## Poster session

What do you think about the poster session? Should we have it at the next kick-off as well? Suggestions for how we could improve it?

## Kick-off meeting(s) feedback

What do you think about our kick-off meeting(s) (format, purpose, location, etc)?
