To summarize

- This is a very ambitious project
 - claimed a lot of time from the organizers (design, content, implementation, coordination, local organization, ...)
- First time doing that
 - test this format that we are not sure
 - how it may work, or
 - whether we have missed something important
 - lessons will be learnt - by you and by us
- Don't judge, help to evolve the form

Welcome to Gothenburg...

...and welcome to the WG1 event!

WG1 workshop, Gothenburg, 5-7 Dec 2018

Learning materials through crowdsourcing: teachers, perspectives & scenarios

Venue: University of Gothenburg, Lennart Torstenssongata 6, K332 / K333

Maps and directions

- From the airport: if you take a *Flight bus* (Swe "flygbussen") and go to the Hotel Panorama or to the venue (GU, Lennart Torstenssongata 8), you should get off at *Korsvägen* - the first stop.
- Map [Korsvägen - Hotel Panorama](#). Make sure the Gothia Tower (Svenska Mässan) buildings are behind you.
- Map [Korsvägen - Lennart Torstenssongata 8](#). Pay attention that the map leads you to Lennart Torstenssongata 4. From there, enter a parking lot through a (pretty narrow) stone fence opening, cross the parking and go up the stairs to the building. We will (try not to forget to) put signs leading you to the meeting room.
- Map [Hotel Panorama - Lennart Torstenssongata 8](#). Note that the turn from Eklandagata on the map leads you to a long staircase that seemingly leads you to a construction site. You go through the park area, and come to the alley where the building for our meeting is (marked as "Work" on the map). We will try to set signs leading you to the meeting room from all possible entry points. If you think this is a scary way - go through Korsvägen instead. It will take 10 more minutes.
